

It's been already nearly 9 years since Clement and Monia got involved with their teams in

la Grappe d'or, l'Empreinte du Temps and for some years now in the wine shop Vin en Vie, always looking to offer their best.

As the catering world becomes more and more complex, we have decided to optimize our energy and means to ensure the future development of our activities.

We have therefore decided not to re-open the restaurant l'Empreinte du Temps in Torgny after the summer break.

The hotel rooms of l'Empreinte du Temps will of course remain operational and we are already thinking about the best use for the space freed up by the restaurant.

The success of our wine shop Vin en Vie requires more room for the sales, tasting and storage and it is one of the strategic objectives we will work on immediately with Cedric.

Our local products promoted relentlessly by Clement could also benefit from this new space.

We will personally contact all clients who made a reservation at the restaurant L'Empreinte du Temps and we invite any person in possession of a gift voucher for the restaurant to contact us in order to find an arrangement that suits them best.

We wish to thank our customers for their loyalty and trust over the course of these past years and remind them that the culinary offer of l'Empreinte du Temps was inspired by the chef of la Grappe d'Or in Torgny.

There, within 30 metres of l'Empreinte du Temps, they will be able to continue enjoying his creativity, refreshing tastes and flavours. A 3 course market menu is already available at an affordable price.
